

Authorized Body 227

Building Research Institute in Prague – Certification company L.t.d.

Notified Body 1516, Certification body for Products, Quality Systems, EMS, OHSAS and ISMS. Testing Laboratory

Decision on authorization No. 32/2006 of 31.8.2006

PRODUCT CERTIFICATE

No. 227/C5/2012/0048

the Authorized Body confirms in accordance with the provision of § 5 clause 2 of the Government Regulation No. 163/2002 of the Call., in the wording of the Government Regulation No. 312/2005 of the Call. which stipulates technical requirements on the determined building products, that for the building product:

product name: **Fabric ducting&diffusers**

intended use: Fabric ducting&diffusers are used for air distribution or air exhaustion in all types of constructions. These products are used for ventilation, hot-air heating, cooling, air conditioning etc. and for inlet and outlet of air without mechanical ingredients, which would stick to the tube wall or would clog microperforation slots in any inner spaces without danger of explosion.

applicant: **Příhoda, s.r.o.**
Za radnicí 476, 539 01 Hlinsko, Česká republika IČ: 62024205

producer: **Příhoda, s.r.o.**
Za radnicí 476, 539 01 Hlinsko, Česká republika IČ: 62024205

the documentation submitted by the producer were reviewed, the initial type testing of the product sample was carried out, the production control system of the producer was reviewed and there was found out that the product mentioned above meets the technical requirements determined at the Building Technical Approval No. 227-STO -12-0048 related to the fundamental requirements.

The Authorized body has found out that the production control system conforms to the relevant technical documentation and ensures that the products placed on the market meet the requirements determined at the above mentioned technical standards and conform to the technical documentation according to § 4 clause 3.

Protocol No. 227-P5-12-0048 Dof 31.01.2012 which involves the results of the findings, verification and the tests results, fundamental description and eventually a scheme of the certified product necessary for its identification, is an integral part of this certificate.

This certificate has been valid until the requirements determined at the above mentioned Building Technical Approval or the production conditions at the place of production or the production control system do not change significantly.

Authorized Body No.227 will carry out surveillances (at least once a year) regarding to the proper operation of the factory production controll at the place of product, will take the product samples at the place of production, will carry out the product testing and the products characteristics conformity assessments to the requirements of the Building Technical Approval according to the provision of the §5 clause 4 of the Government Regulation mentioned above. In case the Authorized Body finds faults, it is empowered to withdraw or to change the certificate issued.
